***Before You See the World, Come See Us!***  
***St. Clair County Health Department Offers Immunization Travel Program***

If you are traveling abroad for work, pleasure, or a missionary related trip it is important to receive advice about immunizations, both travel and recommended, as well as travelers health. Being knowledgeable about vaccine preventable diseases, as well as receiving medically accurate, prevention education on other emerging health threats like Zika virus, dengue virus, chikungunya virus and others is an essential part of planning for a healthy trip. The St. Clair County Health Department wants you to be prepared and travel safe.

The Immunization Travel Program is available for infants as young as 6 months of age through adults with future travel plans. Travel consultations include reviewing travel immunizations, current CDC recommended immunizations, preventive education, malaria recommendations and safety tips. Administration of vaccine(s) can take place at time of consultation or an appointment can be scheduled. Appointments for travel consultations should be made 4-6 weeks in advance of departure. Fees apply.

To schedule an appointment or for more information, contact St. Clair County Health Department's Immunization Travel Program at (810) 987-5300.
