***St. Clair County Health Department WIC Program Participating in Project Fresh
Registration Now Open for June 14th Class***

The St. Clair County Health Department WIC program will be participating with **PROJECT FRESH** (PF) again this year. *Project Fresh* is a WIC initiative that collaborates with local farmers to provide fresh fruits and vegetables to WIC clients through the local Farmers Market. 121 *Project Fresh* coupon booklets worth \$20.00 each will be distributed to current WIC clients (*except infants, one per family*) on a first come, first serve basis.

Eligible clients can now register for the *Project Fresh* class scheduled for June 14th at Vantage Point by calling the WIC program at (810) 987-8222. Once the client has completed the *Project Fresh* class, they will be issued coupons for immediate use at the Farmers Market. Coupons are valid through October 31st, 2016.
