St. Clair County Health Department Walk-in Clinic Services Not Available on March 13 & 20

St. Clair County Health Department's regularly scheduled walk-in clinic services for Sexually Transmitted Infections (STI) and Human Immunodeficiency Virus (HIV) testing, pregnancy testing, and condom distribution will not be available on Tuesday, March 13 and 20 due to mandatory staff training. Those in need of those services are asked to make an appointment by calling (810) 987-5300. Normal walk-in clinic services hours will resume on March 27.

The St. Clair County Health Department is transitioning to a new and improved electronic medical health record system in April with training occurring in March. Thank you for your patience and support as we transition over to this new system.

For more information call (810)987-5300.
