

Blue Cross Blue Shield and Blue Care Network Preferred Alternatives — August 2017

The Blue Cross and BCN Preferred Alternatives list is a helpful guide when selecting alternative prescription drugs. This list is intended as a reference guide and does not dictate coverage. Some Blue Cross and BCN members do not have coverage for Tier 3 (non-preferred) agents, or the suggested alternatives. Members should refer to their specific drug benefit information for a full list of covered drugs and requirements. Most of the tier 3 drugs listed below require Prior Approval or Step Therapy. Brands with a generic equivalent are listed with a "(g)", the generic is covered, however the brand may not be covered or may require a higher copay.
