

Help this recycling truck find the **RECYCLING** center.

Peter Paper wants you to know that newspapers can be **RECYCLED** 100.

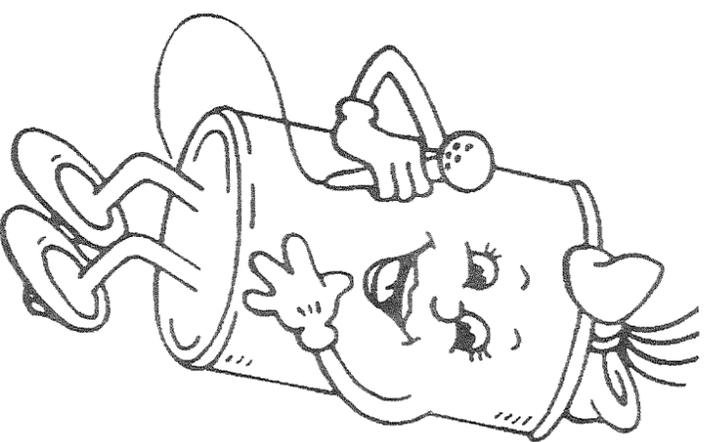

Max Glass

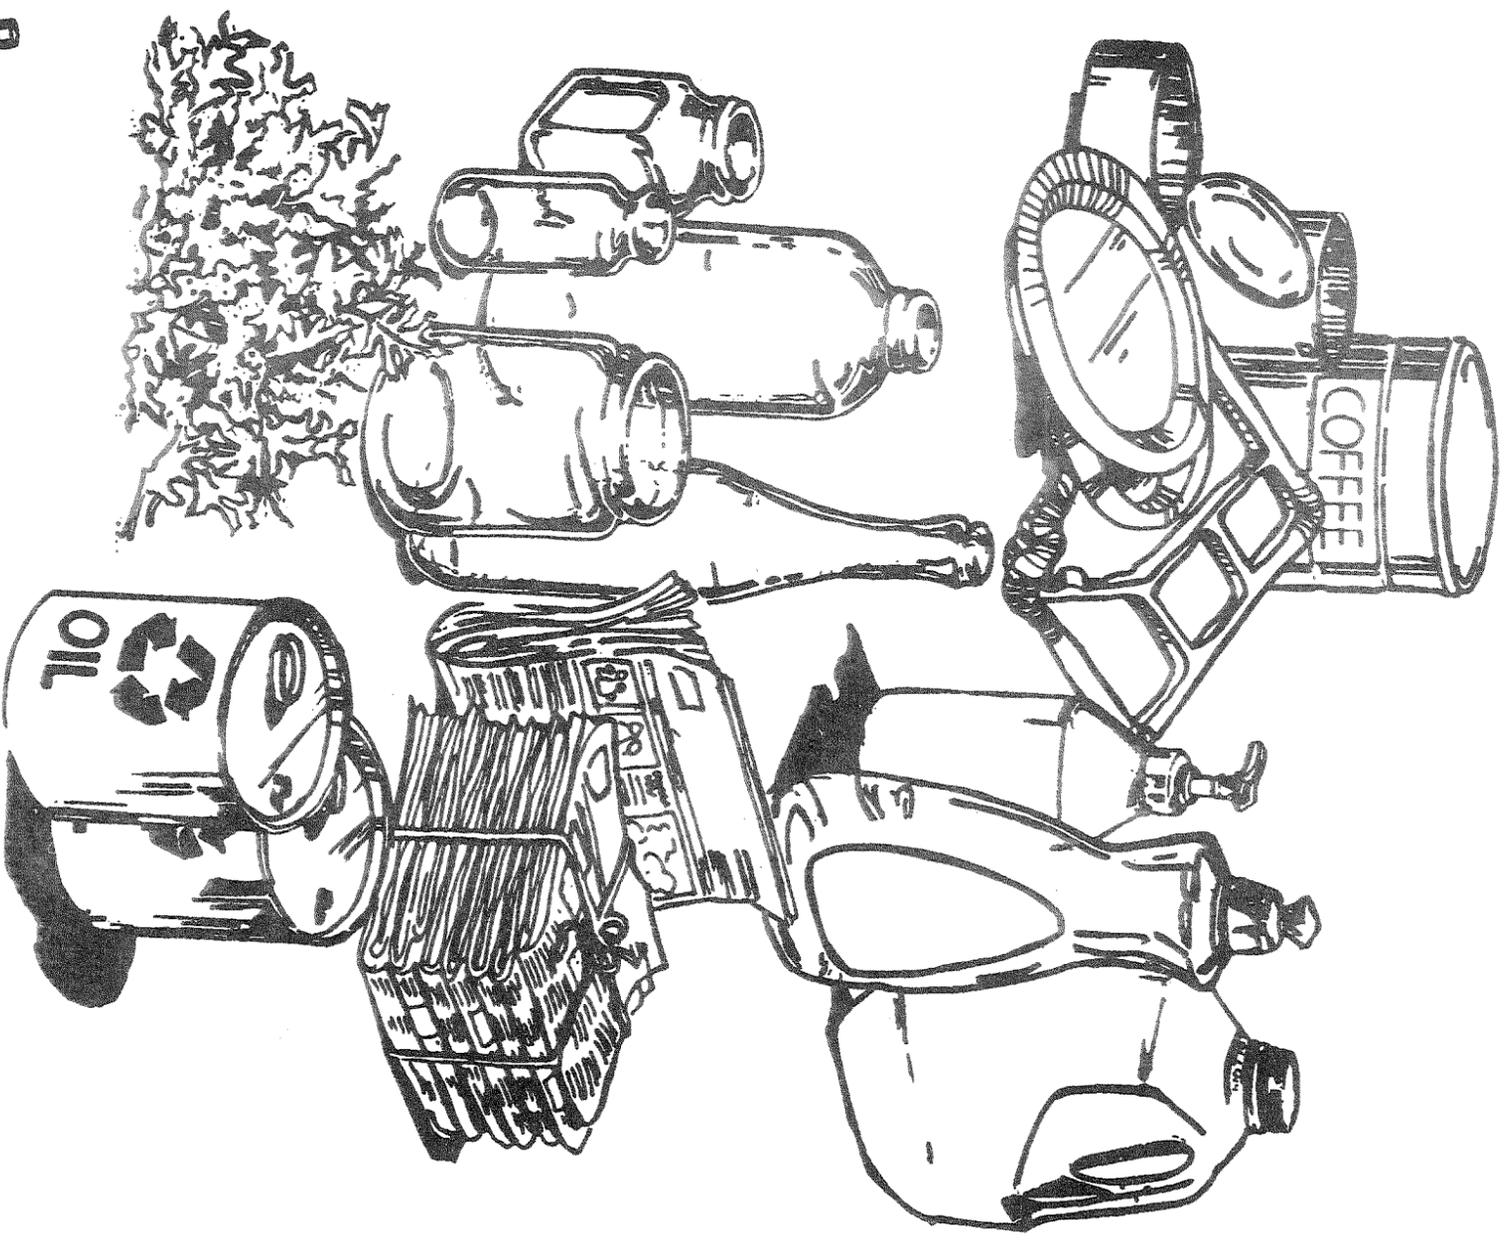

Make a list of the things we can
make from recycled glass.

Make a list of the things we can
make from recycled metal.

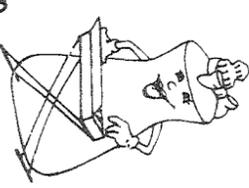

Pam Can

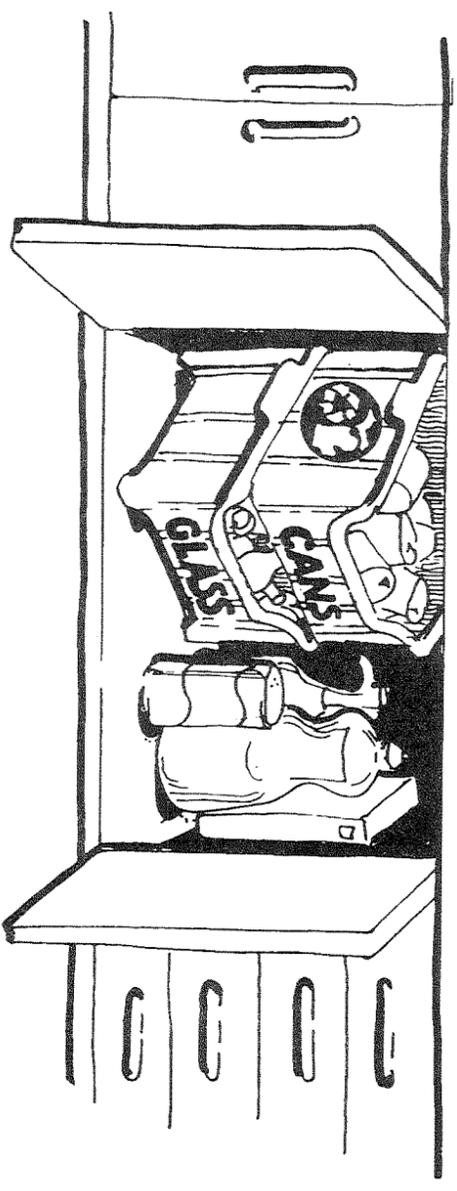

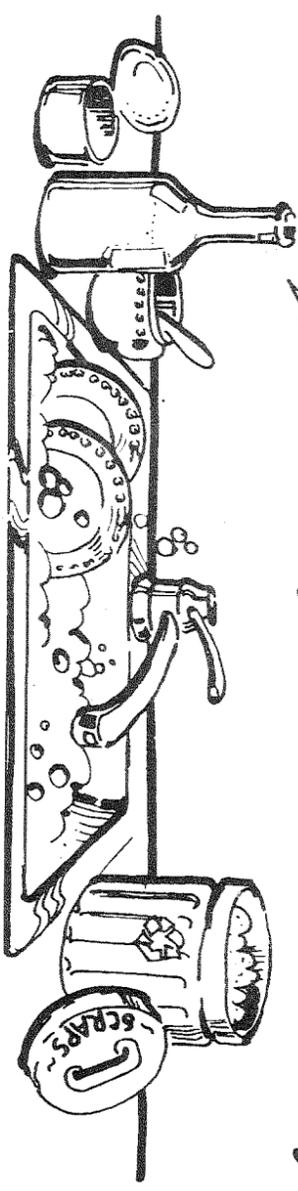

Help Max Glass color these
things that can be **RECYCLED**.

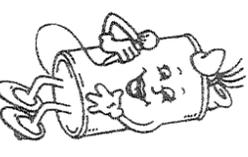

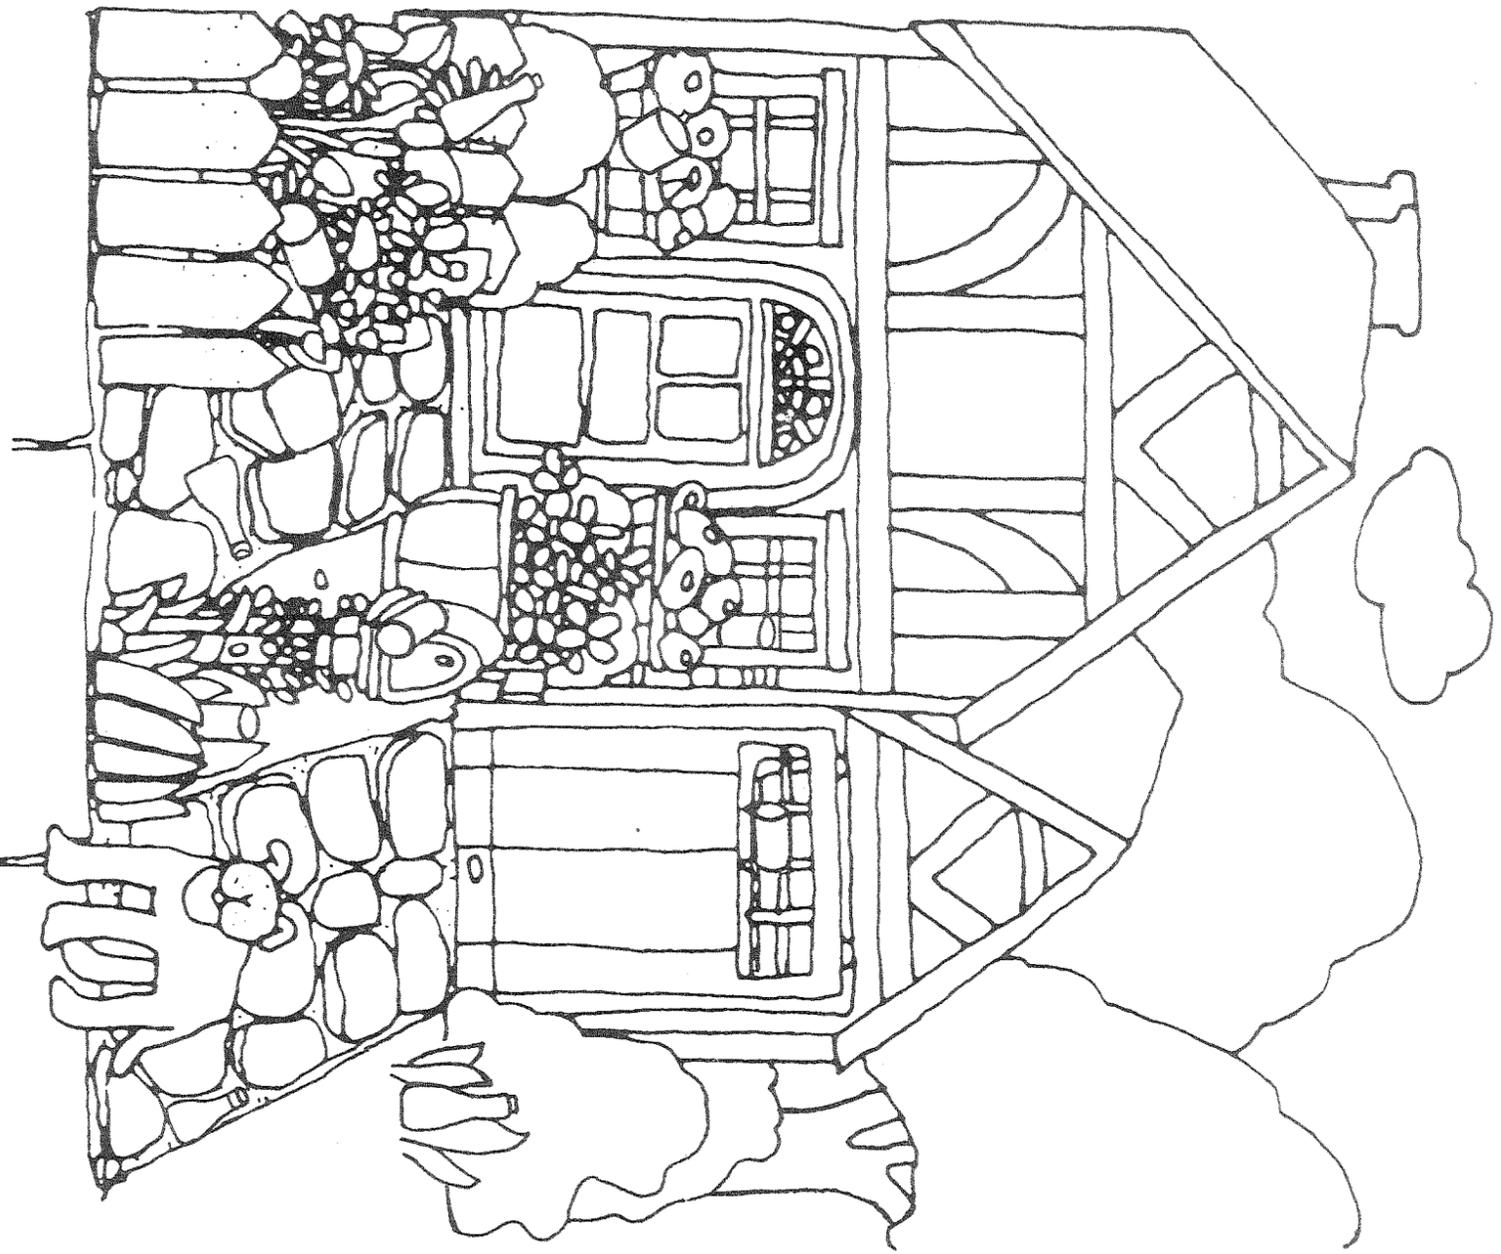

Before you do this . . .

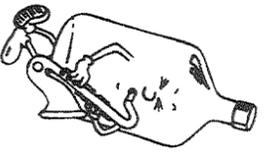

Betty Bottle wants you

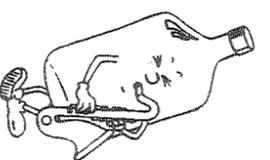

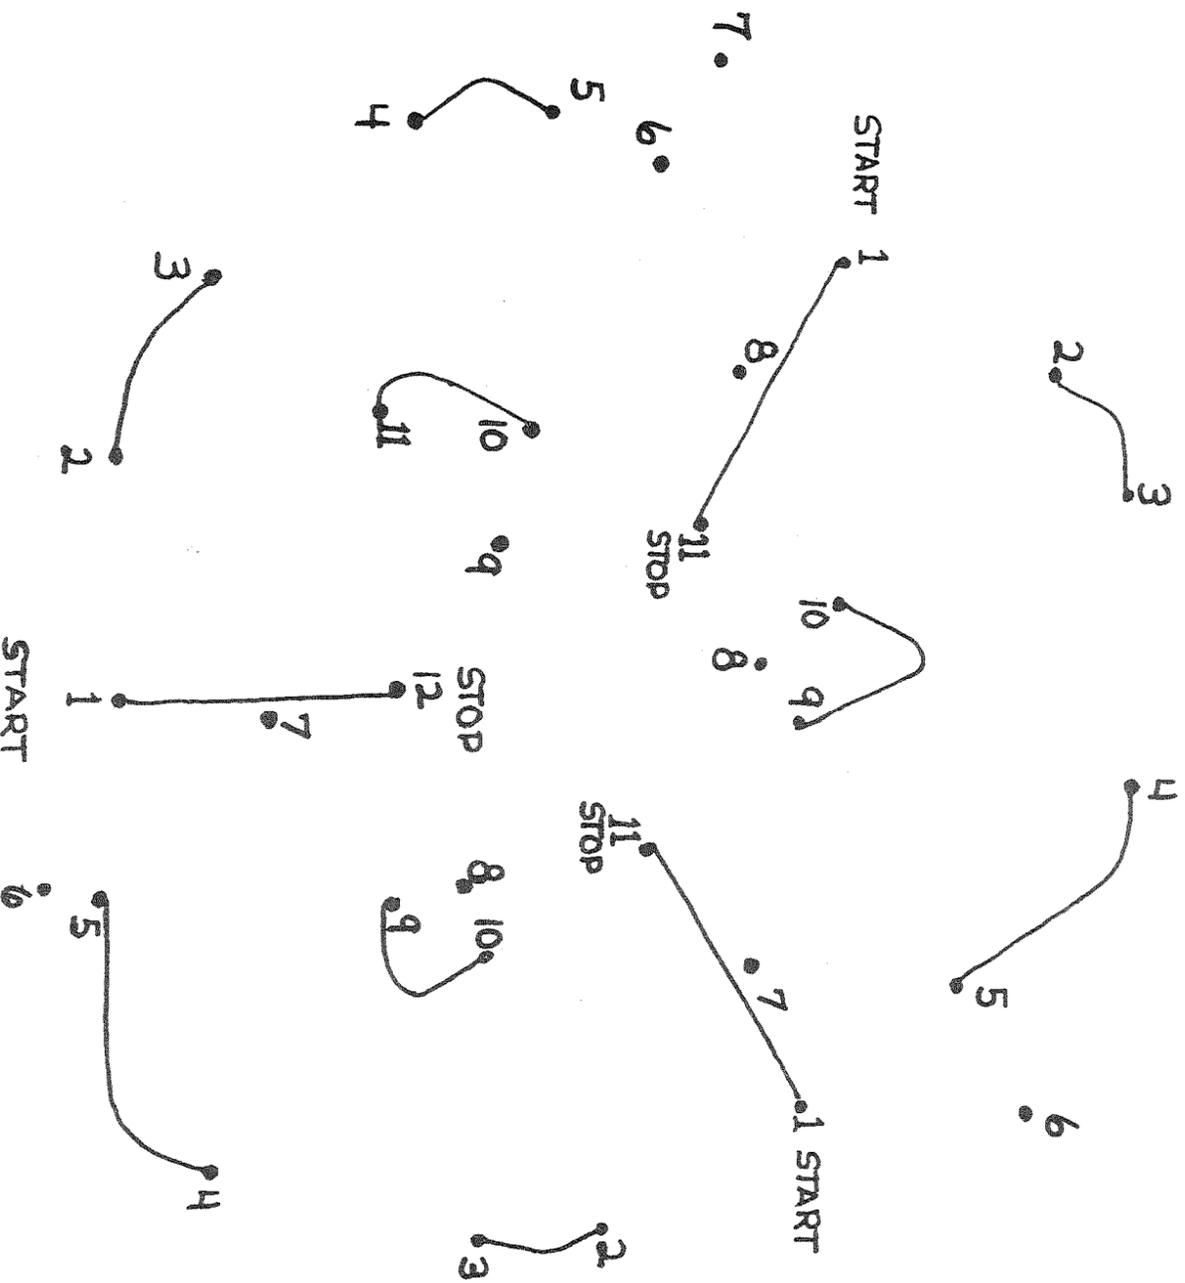

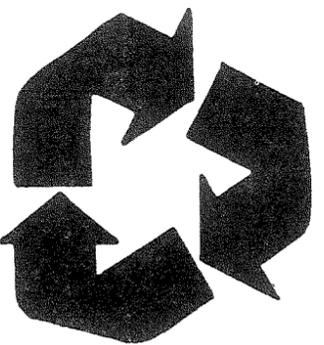

*to do this . . . **RECYCLE***

*Pam Can says there are 10 cans and bottles that can be **RECYCLED** hidden in this picture — can you find them?*

Max Glass says to draw a RECYCLE logo like this one. The recycling triangle shows us that one thing can become something new and can be used over and over again.

Help Max Glass find the **TEN** words listed below.

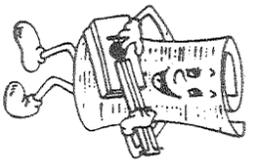

F	N	E	W	S	P	A	P	E	R	S	Q	S	P
O	A	Z	N	Y	J	V	K	X	E	T	U	S	T
R	U	H	M	T	W	C	P	T	C	R	S	H	I

Funky Junk Band

Remember the 3 P's of recycling

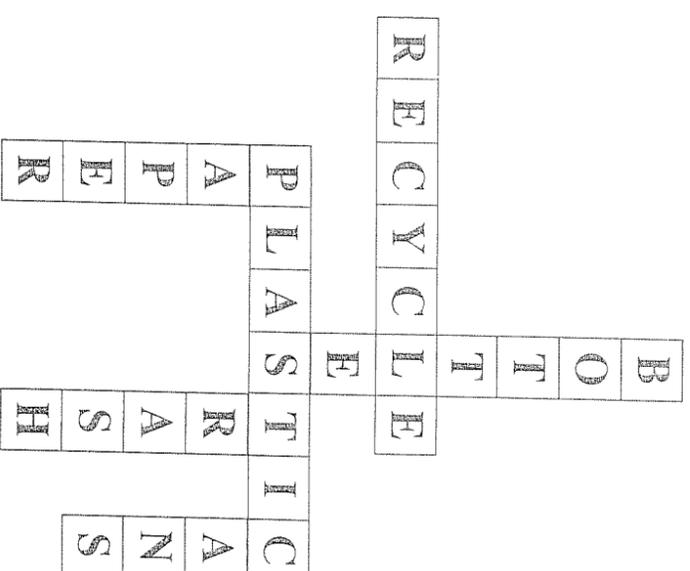

Dear Recyclers,

Having fun and taking care of our environment go together naturally. This coloring book gives you some fun activities that will help you think about ways to protect our Earth by recycling.

We should all try to use less, so we make less trash. We can reuse many bags, boxes and other containers. This will also make less trash. Much of the trash we do end up with can be recycled and made into new items. So remember to Reduce, Reuse and Recycle!

The Funky Junk Band gives us a fun way of looking at our environment and what we can do for it. Join the Funky Junk Band now in having a good time while we protect the environment by recycling.
