Total
Deaths

21061

Total
Recovered

This report is provisional and subject to change. As public health investigations of individual cases continue, there will be corrections to the status and details of referred cases that result in changes to this report. Weekly totals and averages only include changes for the reported week. Total cases to date for hospitalizations, deaths and recovered can be double counted (e.g. a person that has recovered and was hospitalized will count for both totals).

Total Cases: The total number of probable and confirmed cases following CDC guidelines investigated by St. Clair County Health Department.

Data obtained from the Michigan Disease Surveillance System, Michigan.gov/coronavirus, and MIStartMap.Info

St. Clair County COVID-19 Data:

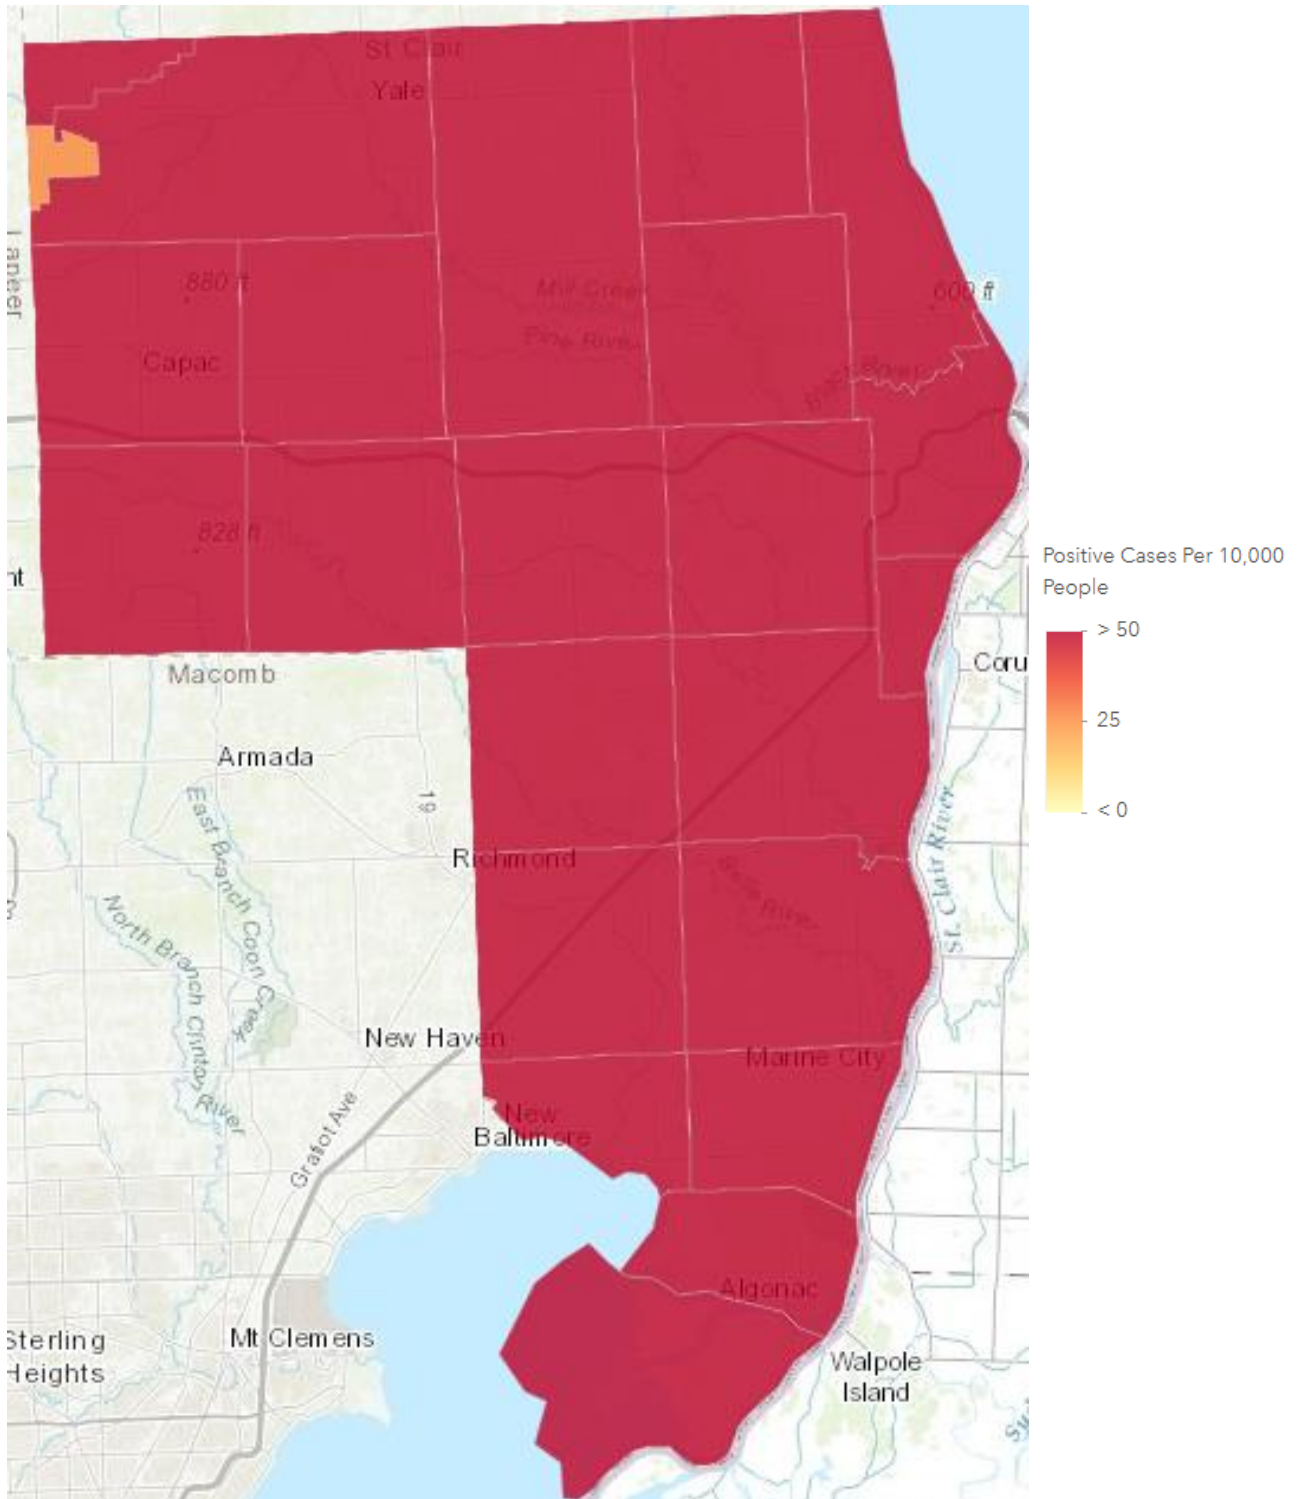

New Cases and 7-Day Average of New Cases*

This report displays the running 7-day average number of new Covid-19 cases, both confirmed and probable cases. Only cases among St. Clair County residents were included and cases were counted based on their referral date to the St. Clair County Health department.

*This report is provisional and subject to change. As public health investigations of individual cases continue, there will be corrections to the status and details of referred cases that result in changes to this report. Data for this report was obtained from the Michigan Disease Surveillance System (MDSS). Information based on Referral Dates.

COVID-19 Cases (per 10,000 population)
 Period: 10/13/2021 to 11/11/2021

This report displays the total number of COVID-19 cases referred to the St. Clair County Health Department within the given report range as listed above. Case numbers are displayed by home address. The number of cases in a zip code was adjusted 'per ten thousand' people scale so that zip codes could be easily compared. Data for this report was from the Michigan Disease Surveillance System (MDSS). This report is provisional and subject to change. As public health investigations of individual cases continue, there will be corrections to the status and details of referred cases that result in changes to this report.
