St. Clair County COVID-19 Data Update

Current CDC Community Level	High
Current MDHHS COVID-19 Response Phase	Recovery (Post-Surge)

In communities like ours with a **High** COVID-19 Community Level, the CDC recommends:

- Wear a well-fitting mask indoors in public, regardless of vaccination status (including in K-12 schools and other indoor community settings)
- If you are immunocompromised or [high risk](#) for severe disease
 - Wear a [mask or respirator](#) that provides you with greater protection
 - Consider avoiding non-essential indoor activities in public where you could be exposed
 - Talk to your healthcare provider about whether you need to wear a mask and take other precautions (e.g., testing)
 - Have a plan for rapid testing if needed (e.g., having home tests or access to testing)
 - Talk to your healthcare provider about whether you are a candidate for treatments like oral antivirals, PrEP, and monoclonal antibodies
- If you have household or social contact with someone at [high risk](#) for severe disease
 - Consider self-testing to detect infection before contact
 - Consider wearing a mask when indoors with them
- Stay [up to date](#) with COVID-19 vaccines and boosters
- Maintain improved ventilation throughout indoor spaces when possible
- Follow CDC recommendations for isolation and quarantine, including [getting tested](#) if you are exposed to COVID-19 or have symptoms of COVID-19

CDC Community Levels Nationally and Statewide

Data for maps below was calculated on 5/19/2022

Data in this report is provisional.

Ongoing response to COVID-19 cycle

Response (Surge)

A surge means rapid response by local and state public health.

- Increased supplies for testing, masking and medications.
- Increased masking, testing and social distancing efforts.

Visit Michigan.gov/Coronavirus for current COVID-19 information.

Readiness (Pre-Surge)

A surge is expected due to a new variant, local outbreak, seasonal changes.

Expect increased illness severity and overwhelmed hospital capacity.

- Educate public regarding new risks.
- Ensure enough supplies of tests, masks and medications.

Recovery (Post-Surge)

Expect to remain in this phase for longer periods as COVID-19 evolves.

Monitor conditions that may lead to surges, such as a new variant.

- Encourage vaccines to decrease COVID-19 risks.
- Strengthen community support with local stakeholders.
- Empower community members to make best choices for individual situations.

Make a COVID-19 Plan

Visit Michigan.gov/Coronavirus for current COVID-19 information.

Make a plan for vaccination or learn if you are eligible for boosters.

- Ages 5 and older can get vaccinated.
- Ages 12 and older can get the booster.
- Ages 50 and older, or 12 and older and moderately to severely immunocompromised, can schedule a second booster.

Learn more about vaccines and whether you're up to date at Michigan.gov/COVIDVaccine.

Keep a supply of well-fitting masks.

Masks are helpful tools to reduce COVID-19 transmission, especially if:

- You are unwell or test positive for COVID-19.
- You have been exposed to someone with COVID-19.
- You are concerned about the risk of transmission in a particular setting. Respect that others may have a risk different than yours.

Learn more about masking at Michigan.gov/MaskUp.

Keep a supply of over-the-counter COVID-19 tests.

Tests are useful for early detection of COVID-19, especially if:

- You have symptoms of or have been exposed to COVID-19.
- You are traveling or will be attending a large or unmasked gathering. Test before and after attending large events.

Over-the-counter tests are available at libraries and schools through MIbackpack, also through federal distribution programs. Learn more about COVID-19 testing at Michigan.gov/COVIDTest.

Learn if you are eligible for COVID-19 therapeutics.

- Talk to a primary care provider about whether you are eligible for preventative antibodies or for COVID-19 antiviral treatment if you become infected.

Learn more about COVID-19 therapeutics at Michigan.gov/COVIDTherapy.
