

As of 6/24/2022

St. Clair County COVID-19 Data Update

Current CDC Community Level	Low
Current MDHHS COVID-19 Response Phase	Recovery (Post-Surge)

In communities like ours with a **low** COVID-19 Community Level, the CDC recommends:

- Stay [up to date](#) with COVID-19 vaccines and boosters
- Maintain improved ventilation throughout indoor spaces when possible
- Follow CDC recommendations for isolation and quarantine, including [getting tested](#) if you are exposed to COVID-19 or have symptoms of COVID-19
- If you are immunocompromised or [high risk](#) for severe disease
 - Have a plan for rapid testing if needed (e.g. having home tests or access to testing)
 - Talk to your healthcare provider about whether you are a candidate for treatments like oral antivirals, PrEP, and monoclonal antibodies

At all Community Levels, people can wear a mask based on personal preference, informed by personal level of risk. People with symptoms, a positive test, or exposure to someone with COVID-19 should wear a mask.

St. Clair County COVID-19 Data

COVID-19 Statistics for St. Clair County			
Data Points	Date	Result	Trend
COVID-19 Cases (referred in prior 7 days)	6/24/2022	165	↓
COVID-19 Deaths (reported in prior 7 days)		0	

Data obtained from MDSS. Includes confirmed and probable cases. Based on referral date to the SCCHD.

Data Points	Date	Result	Trend
New COVID-19 Cases per 100,000 Residents (7-day avg.)	6/14/2022 – 6/20/2022	104.3	↓
Test Positivity		17.9%	↔
Completed COVID-19 Vaccine Series	6/14/2022	43.2%	
Initiated COVID-19 Vaccine Series		52.7%	

Data obtained from mistartmap.info

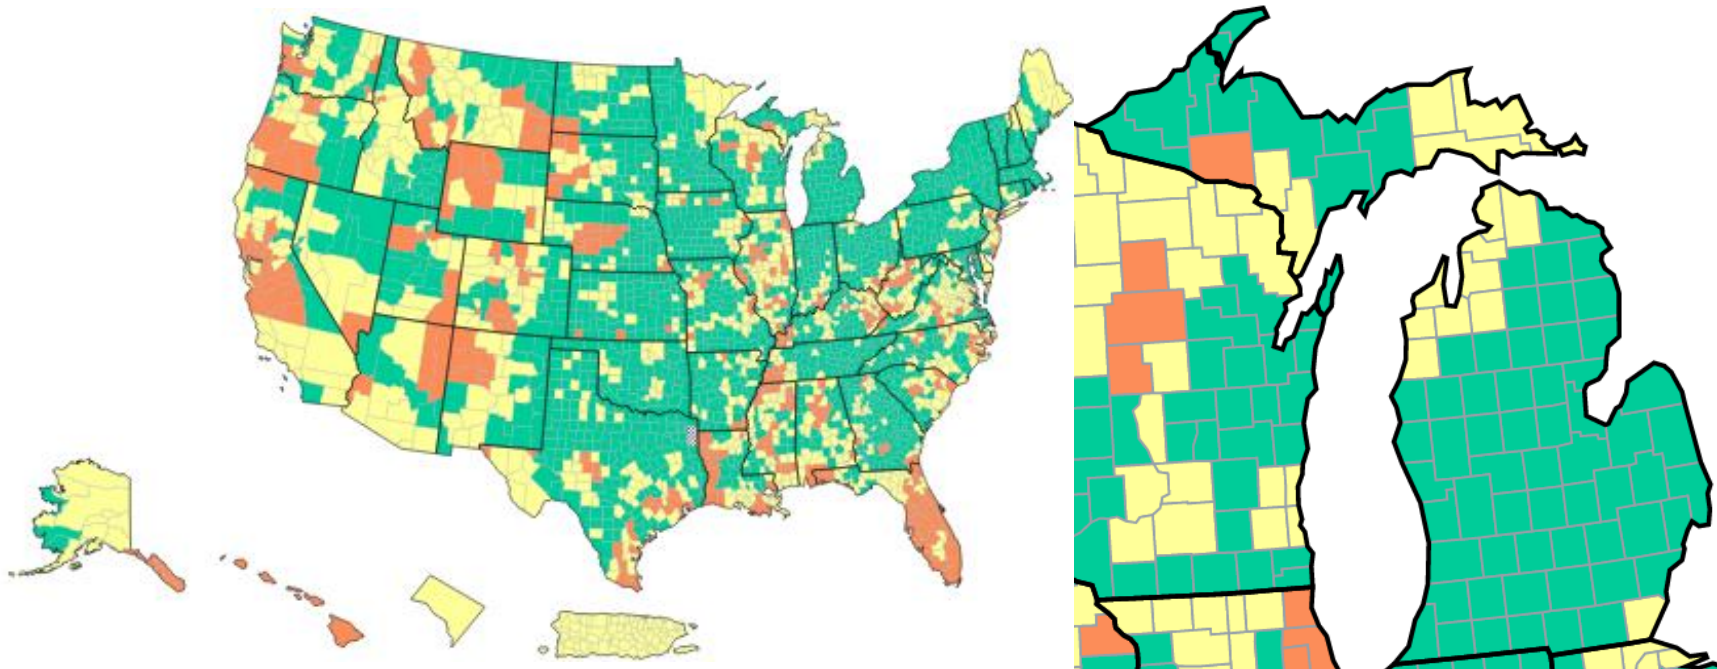

Data Points	Date	Result	Trend

Data in this report is provisional.

CDC Community Levels Nationally and Statewide

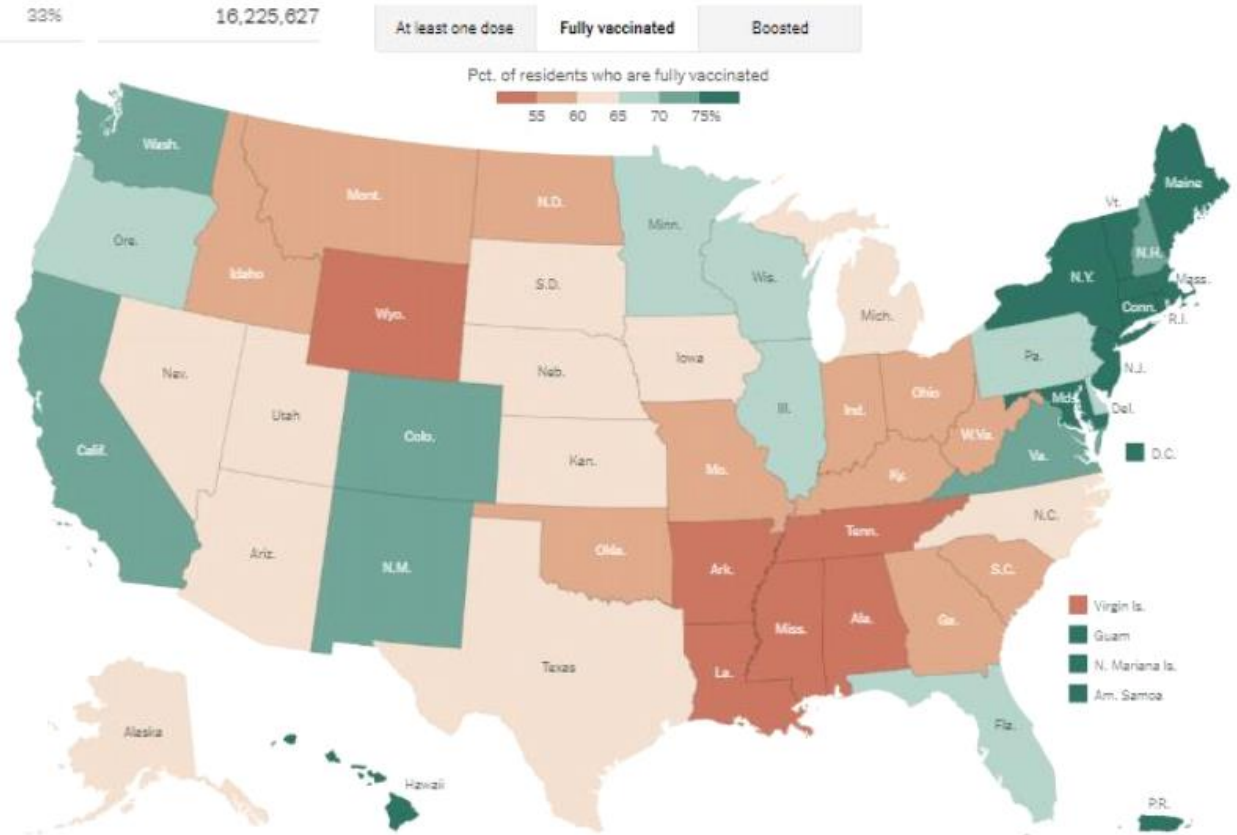

Data for maps below was calculated on 6/23/2022

Data in this report is provisional.

Michigan's performance nationally

Name	Pct. of residents			Doses administered
	With at least one dose	Fully vaccinated	With a booster	
U.S. total*	78%	67%	31%	589,231,370
Michigan	67%	60%	33%	16,225,627

Sources: Centers for Disease Control and Prevention, U.S. Census Bureau

Completed primary series – 5+ Population

Residents Vaccinated	5,727,201
Coverage (% of Residents Vaccinated)	60.8%
MI Population*	9,420,414
*2019 US Census estimates for persons 5 years of age and older	

Examples of heterogeneity in vaccine uptake by geographic area

42% completion; 10% completion in 5-11 yo

72% completion; 54% completion in 5-11yo

Ongoing response to COVID-19 cycle

Response (Surge)

A surge means rapid response by local and state public health.

- Increased supplies for testing, masking and medications.
- Increased masking, testing and social distancing efforts.

Visit Michigan.gov/Coronavirus for current COVID-19 information.

Readiness (Pre-Surge)

A surge is expected due to a new variant, local outbreak, seasonal changes.

Expect increased illness severity and overwhelmed hospital capacity.

- Educate public regarding new risks.
- Ensure enough supplies of tests, masks and medications.

Recovery (Post-Surge)

Expect to remain in this phase for longer periods as COVID-19 evolves.

Monitor conditions that may lead to surges, such as a new variant.

- Encourage vaccines to decrease COVID-19 risks.
- Strengthen community support with local stakeholders.
- Empower community members to make best choices for individual situations.

Make a COVID-19 Plan

Visit Michigan.gov/Coronavirus for current COVID-19 information.

Make a plan for vaccination or learn if you are eligible for boosters.

- Ages 5 and older can get vaccinated.
- Ages 12 and older can get the booster.
- Ages 50 and older, or 12 and older and moderately to severely immunocompromised, can schedule a second booster.

Learn more about vaccines and whether you're up to date at Michigan.gov/COVIDVaccine.

Keep a supply of well-fitting masks.

Masks are helpful tools to reduce COVID-19 transmission, especially if:

- You are unwell or test positive for COVID-19.
- You have been exposed to someone with COVID-19.
- You are concerned about the risk of transmission in a particular setting. Respect that others may have a risk different than yours.

Learn more about masking at Michigan.gov/MaskUp.

Keep a supply of over-the-counter COVID-19 tests.

- Tests are useful for early detection of COVID-19, especially if:
- You have symptoms of or have been exposed to COVID-19.
 - You are traveling or will be attending a large or unmasked gathering. Test before and after attending large events.

Over-the-counter tests are available at libraries and schools through MIbackpack, also through federal distribution programs. Learn more about COVID-19 testing at Michigan.gov/COVIDTest.

Learn if you are eligible for COVID-19 therapeutics.

- Talk to a primary care provider about whether you are eligible for preventative antibodies or for COVID-19 antiviral treatment if you become infected.

Learn more about COVID-19 therapeutics at Michigan.gov/COVIDTherapy.
