Environmental Health Division
220 Fort Street Port Huron MI 48060
Office: (810) 987-5306 / Fax: (810) 985-5533
environmentalhealth@stclaircounty.org

INFORMATION REQUIRED TO PROCESS A SESC PERMIT

In order to process your Soil Erosion and Sedimentation Control (SESC) application, the following items must be submitted. The Health Department will not accept any incomplete applications or plans. Please use the following guidelines when submitting an application for a SESC Permit:

1. Soil Erosion and Sedimentation Control Plan:

These items must be on the drawing you submit

- a. Scaled or dimensioned drawing.
(Measurements from activity to property line)
- b. Distance to watercourse.
- c. Predominant land features.
(Features to identify the property)
- d. Description and limits of earth changes.
(Surface area being disturbed on property)
- e. Description and location of control measures.
(What is the permanent stabilization method of the property, for example: Lawn, gravel driveway, concrete driveway, landscaping etc.)
- f. Soil information: Type of soil
- g. Contour interval slope description.
(Slope of the property)

2. Completed application

The property owner must sign the application or a designated agent form.

3. Timing and sequence schedule of earth change.

4. Legal Description and property Tax ID number.

5. Site location sketch.

Drawing showing how to get to the property

6. Required Fee

Upon receipt of your completed application the Health Department will conduct a site inspection and review your site plan. Your site will be periodically inspected throughout the term of your permit to ensure compliance with Part 91.

Prior to the expiration date of your permit, a final inspection will be done to determine if the site has been permanently stabilized or the permit needs to be renewed in accordance with the current permit fee schedule.

SOIL EROSION PERMIT FEES

RESIDENTIAL FEES

New Home Construction (Single or Duplex)	\$275
Home Addition, Garage, Road Ditch Enclosures, Pond, etc.	\$200
Renewal (12 month)	\$150
Seawall	\$150
SESC Permit Amendment	\$150
Inspection fee (additional inspections)	\$ 75
Permit Waiver (may be granted if less than 225 sq ft)	\$ 50

COMMERCIAL FEES

Less than 1 acre	\$500
1-5 acres	\$700
5.1-10 acres	\$900
10.1-20 acres	\$1100
over 20 acres, per acre thereafter	\$50
Renewal (12 month)	50% of permit fee
Sand / Gravel Pit less than 10 acres	\$300
10-25 acres	\$500
over 25 acres	\$700
Seawall	\$150
Utilities up to 1 mile	\$200
each additional mile	\$75
SESC Permit Amendment	\$150
Plan Review Only	\$200
Inspection fee (additional inspections)	\$75

Prior to issuing a commercial permit, a deposit of cash, check, irrevocable bank letter of credit, title company letter of credit or surety bond is required in the amount of one hundred (100%) of the approved land owner's authorized agent's estimate of the total cost to construct the soil erosion and sedimentation control protective or corrective measures agreed to in the permit requirements. Release of this deposit will be made upon completion and approval of all work performed relative to the permit.

Please be aware, once a commercial development >5 acres obtains a SESC permit from the SCCHD, they are also required to submit a Notice of Coverage (NOC) to EGLE as required by Permit Rule Regulations.

St. Clair County Soil Erosion and Sedimentation Control Permit

A Soil Erosion and Sedimentation Control permit is necessary for an earth change which disturbs one or more acres of land, *OR* occurs within 500' of a lake, river, stream, drain or other water body.

An “earth change” is described as being a man-made change in the natural cover or topography of land, including cut and fill activities, which may result in or contribute to soil erosion or sedimentation of the waters of the state.

A “stream” is a river, stream, or creek which may or may not be serving as a drain, and which has definite banks, a bed and visible evidence of a continued flow or continued recurrence of water, including the connecting waters of the Great Lakes.

Sediment is the product of uncontrolled erosion and is the greatest pollutant by volume entering our rivers and streams every year. Erosion and sedimentation result in the loss of fertile topsoil, increased flooding, destruction of aquatic habitats, filling of lakes and rivers, and structural damage to buildings and roads. Construction is one of the major causes of erosion.

The applicant must submit an application that provides specific information such as the name of the on-site responsible person, location and size of the earth change, description of the earth change and projected starting and ending dates. The soil erosion and sedimentation control plan shall be reviewed and approved by the St. Clair County Health Department.

Upon receipt of your permit fee, completed application, site plan and schedule of construction, an Environmental Health Sanitarian will conduct a site inspection. Your site will be inspected throughout the term of your permit to ensure compliance with Part 91.

At the end of the permit term, a final inspection will be performed to determine if the site has been permanently stabilized or if the permit needs to be renewed.

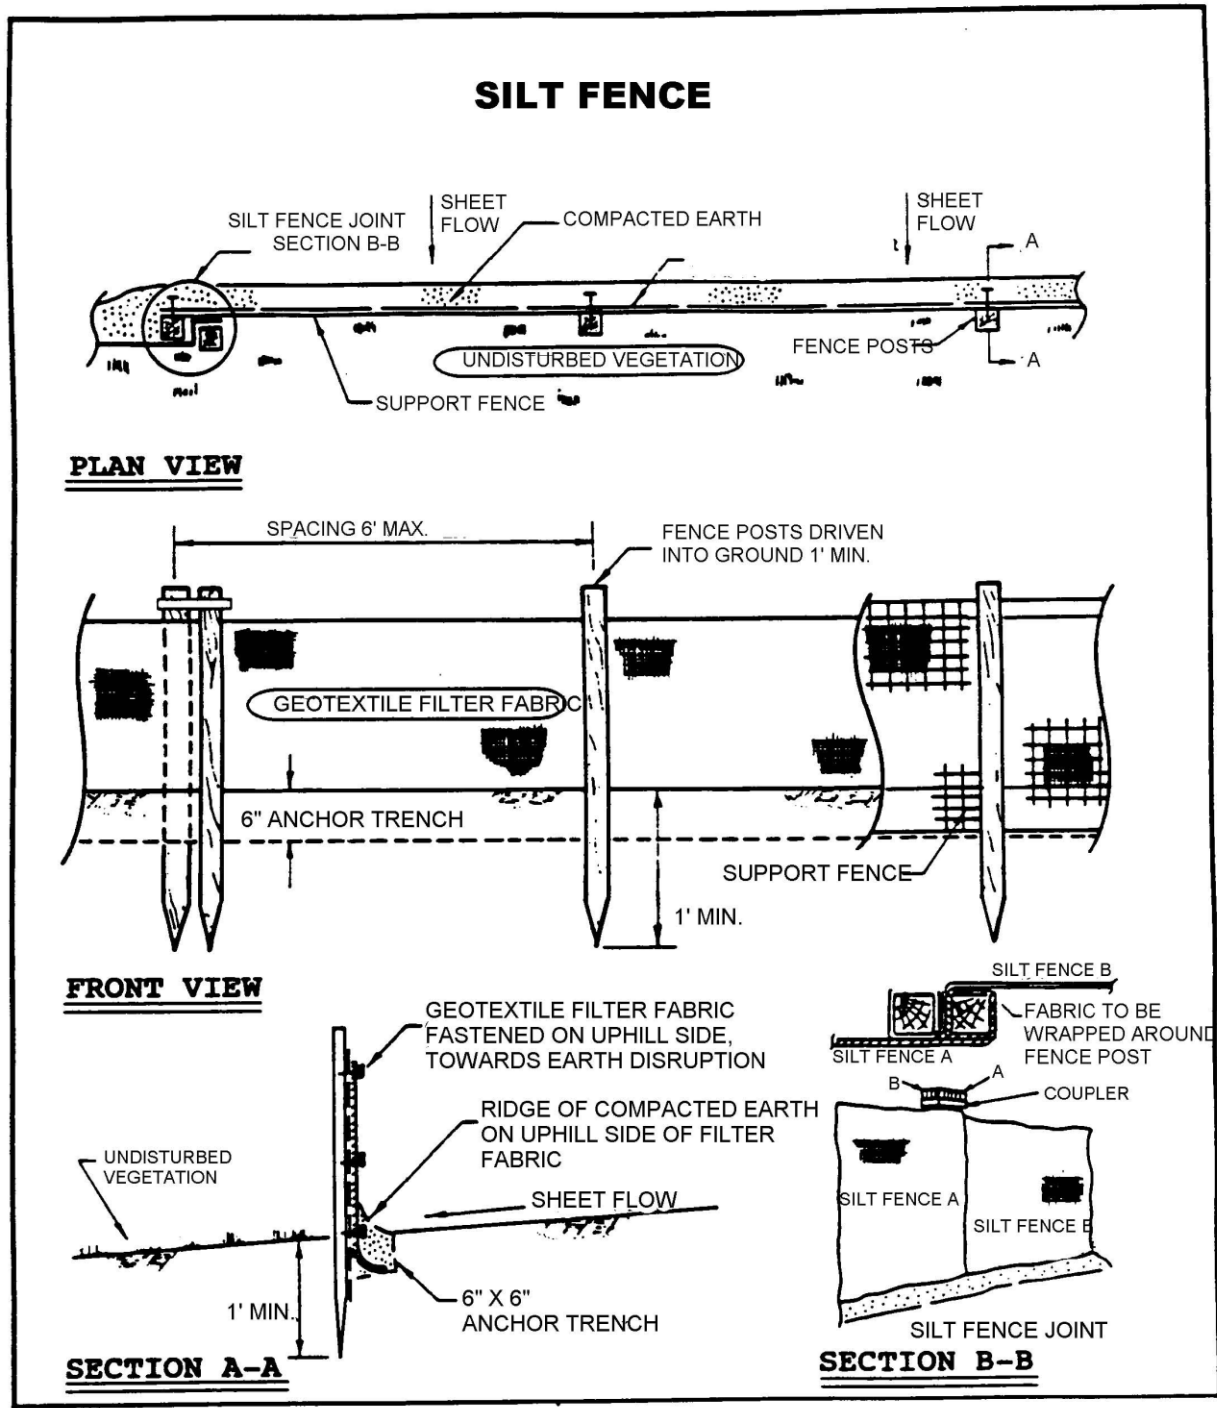

To obtain an application for a soil erosion permit, contact:

**St. Clair County Health Department
Division of Environmental Health
220 Fort Street
Port Huron, MI 48060
