

MOST REQUESTED PROGRAMS

FREE

Interactive hands-on learning opportunities brought to the classroom.

Grades
3-6

One Drop

Learn how precious fresh water is and what a valuable resource we have in St. Clair County during this hands-on learning experience. Water conservation practices will be taught.

My Watershed Address

Grades
2-5

Students learn about local watersheds and discover how Best Management Practices affect local lakes and rivers. Students also participate in an Enviroscape model demonstration.

Where Stormwater Flows- EVERYTHING Goes

Stormwater picks up and carries debris and pollutants through the storm sewer system. This water makes its way, unfiltered into lakes and streams.

SCOOP THE POOP

Protect our lakes and rivers.
Clean up after pets.

WORLD WATER DAY

MARCH 22, 2026

**Protect water
today for a better
tomorrow!**

#stormwater

KEEP IT CLEAN

STORMWATER

KEEP IT CLEAN

CONSERVE WATER

Approximately
21% of Earth's
surface fresh
water is in the
Great Lakes.

STORMWATER
 KEEP IT CLEAN

**EVERY
DROP
COUNTS**

CONSERVE PRESERVE PROTECT

DON'T OVER MOW

Grass absorbs stormwater best when it is three inches long.

#STORMWATERKEEPITCLEAN

FRIENDS OF THE ST. CLAIR RIVER

**STURGEON
FESTIVAL
2026**

**VISIT THE
STORMWATER
TABLE**

**JUNE 6, 2026
10AM-3PM**

**FREE ENTRY
Ft. Gratiot Lighthouse Park
Port Huron, MI**

WASHING THE CAR?

Car washes capture, clean, and recycle water. This is better for the environment.

ST. CLAIR COUNTY
HEALTH DEPARTMENT

Thank You

**It's been another great season for the Beach Program.
Monitoring will resume May of 2027.**

Leaves are a natural fertilizer.

Mulch Leaves

Mow leaves into fine particles and spread evenly throughout the yard to add nutrients to the soil and retain moisture.

Keep the Great Lakes Unsalted

**Limit the use of salt and deicers.
Protect the water today for a
better tomorrow.**
