

# HOW TO USE FENTANYL AND XYLAZINE TEST STRIPS

Fentanyl is 50 - 100 times stronger than morphine so be careful if you use it.

1. Draw up first shot & put aside

2. If you inject, add water to cooker & put test strip in cooker

OR

If you sniff, test residue, empty bag & add water, then put the test strip in bag

3. One line is positive for fentanyl. Two lines is negative for fentanyl.
