

EXPANDING, ENHANCING EMOTIONAL HEALTH (E3)

Expanding, Enhancing Emotional Health (E3) is a program provided through MDHHS Child and Adolescent Health.

E3 sites are located within a school or on school grounds and provide on-site comprehensive mental health services from mild to moderate severity.

E3 services include intake assessments, treatment planning, and individual and group therapy sessions

St. Clair County Health Department – Teen Health offers E3 services at Capac Elementary School.

This program offers mental health counseling five days a week to students in the school and are located within the school building.
