KEEP IT CLEAN

FREE EDUCATIONAL PROGRAMS

Educational Programs

Pollution Solutions

**Grades
2-5**

In this interactive presentation students learn how different pollutants affect stormwater. A watershed model will be used to demonstrate stormwater runoff. (30 minutes)

My Watershed Address

**Grades
2-5**

Students learn what a watershed is and relate it to their address in this hands-on learning experience. Discover how Best Management Practices affect local lakes and rivers. (50 minutes)

One Drop

**Grades
3-6**

Learn how precious fresh water is and what a valuable resource we have in St. Clair County during this hands-on learning experience. Water conservation practices will be taught. (40 minutes)

Stormwater Cycle

**Grades
4-6**

Students learn about the water cycle and stormwater's role in our local watershed. Students will divide into small groups to conduct an experiment. (50 minutes)

Ground Water System

**Grades
4-6**

Study the geology of our region by comparing how water moves through different substrates. Learn about groundwater, wells and aquifers. Apply this knowledge to Best Management Practices. (50 minutes)

Virtual Learning

**Grades
2-12**

Request a virtual Stormwater presentation or participate in an online lesson. More information is available upon request. (30 - 50 minutes)

Programs are:

- **Provided by a trained Environmental Health Educator**
- **Designed for school-age children**
- **Interactive with hands-on learning opportunities**
- **Customizable to your specific needs**

Funding is provided through the St. Clair County Health Department's Stormwater Management Program.
