PLAN REVIEW APPLICATION

St. Clair County Health Department welcomes you to the Plan Review process.

Fee schedule is as follows:

Full Plan Review	\$400.00 X
	\$500.00 Y
	\$600.00 Z
Partial Plan Review	\$250.00 X
	\$350.00 Y
	\$450.00 Z

Plan Review fee is determined by risk factor and scope of project. Plan Review Specialist will determine if you require a full or partial plan review and which risk rating category applies. Risk rating categories and examples are:

- **X** pre -packaged items/low risk foods i.e. Ice Cream Parlors
- Y limited menu i.e. Fast Food Operations
- Z complex preparation including cooking, cooling, reheating i.e. Full Service Restaurant

Plan Review packet is comprised of the following parts:

- 1. Plan Submittal Instructions
- 2. Food Establishment Plan Review Process
- 3. Food Establishment Plan Review Application
- 4. Food Establishment Plan Review Worksheet

Plan Submittal Instruction Sheet lists the items required to complete the Plan Review Application. Upon receipt of the required items, the application will be reviewed in a timely manner. The following correspondence may be sent: requests for more information and disapproval letters. Once the Plan Review is completed, an approval letter will be sent. For more information or questions, contact the St. Clair County Health Department at (810) 987-5306.

Food Establishment Plan Review Submission Instructions

1. Completed Plan Review Application and applicable plan review fees

Food service establishment plan review that is conducted by LHD is mandatory. LHD plan review fees vary by jurisdiction. Contact the LHD who will be conducting the plan review for applicable fees.

2. Completed Plan Review Worksheet

- For fixed establishments, complete the Fixed Food Establishment Worksheet.
- For STFUs and mobile food establishments, complete the Special Transitory Food Unit (STFU) and Mobile Food Establishment Plan Review Worksheet and Standard Operation Procedures (SOP).

3. Complete Menu

For facilities that do not have a formal/set menu (e.g. school with a rotating menu), a list of food and drink offered, or representative sample menu is acceptable.

4. Standard Operating Procedures (SOPs)

- SOPs appropriate to the operation are required prior to opening.
- Guidance on SOPs for fixed establishments can be found in Fixed Food Establishment SOP Manual while SOPs for STFUs/mobile food establishments can be done within Special Transitory Food Unit (STFU) and Mobile Food Establishment Plan Review Worksheet and Standard Operation Procedures (SOP) document.

5. Certified Manager Documentation

Most food establishments are required to employ at least one (1) full time certified manager employee who is certified under the American National Standards Institute (ANSI) accredited certification program (Food Law 2000, as amended, §289.2129). Documentation verifying this requirement needs to be provided prior to opening.

6. One Complete Set of Scaled Plans (1/4" per foot is a normal, easy to read scale) that show:

- Proposed equipment layout plan with all items accurately identified.
- Mechanical plan (e.g. cooking ventilation systems: including hood, duct and exhaust fans).
- Plumbing plan (e.g. handsinks, food preparation sink, warewashing sinks, dishmachines, water heater, hot and cold water lines, sewer drains, grease traps, floor drains/sinks, fresh water and waste water holding tanks for traveling units).
- Lighting plan, indicating light fixtures and type of shielding where applicable.
- Site Plan (e.g. details outside garbage storage and containers, exterior storage areas, on-site water well and sewage disposal)

7. Equipment Specifications

- Include manufacturer's specifications "cut" sheet for each piece of equipment. Minimum information needed includes the following:
 - Type, manufacturer, model number, performance capacity, dimensions.
 - How equipment will be installed (e.g. on legs or wheels, fixed or flexible utility connections)
 - Indicate if equipment is new or used and if it is certified or classified for sanitation by an American National Standards Institute (ANSI)-accredited certification program (e.g. NSF, ETL, UL, etc.).
 - Sanitation Standard Operating Procedures (SSOPs): Include any available cleaning and maintenance instructions for food processing, cutting, grinding equipment.

FOOD ESTABLISHMENT PLAN REVIEW PROCESS

- New Food Establishment/Remodeling/Conversion Proposed. **Note**: Construction may not begin until approval is granted.
- 2 > Operator assembles required documentation, completes the application forms and other required items submits the materials along with payment to appropriate regulatory authority.
- Review conducted by regulatory authority. **Note**: If the facility is serviced by on-site water supply or sewage disposal systems additional approvals will be necessary prior to food establishment plan approval.
- If applicable, regulatory authority requests additional information regarding missing materials or information provided that does not meet requirements.
- Plans are approved and regulatory authority sends a plan review approval letter.
- 6 CONTRUCTION BEGINS*
- Approved plans kept on site during construction. If plans are changed after approval, the changes must be submitted to regulatory authority in writting and approved again before proceeding with construction.
- 8 Applicant applies for food license 30 days prior to intended opening date.
- Complete and submit an air balance test report plus local mechanical department's approval of ventilation system as well as approval from any other applicable departments (e.g. plumbing, building, etc.) if requested by regulatory authority.
- Applicant requests an appointment for a pre-opening inspection, once all construction is complete, as required by the regulatory authority.
- Pre-opening inspection conducted and approval of food licese and operation given by regulatory authority if establishment is compliant with Michigan Food Law and Michigan Modified Food Code. SOPs must be submitted and reviewed prior to opening.

^{*}Regulatory agency has authority to issue a stop work order when construction begins before plans are approved.

REV 11/2022

Fixed Food Establishment Plan Review Application

Meets the Food Law requirement for a transmittal letter to be submitted with the plans.

Michigan Department of Agriculture and Rural Development

Fixed Food Establishment Plan Review Worksheet

To be completed by the operator and submitted to the local health department or the Michigan Department of Agriculture and Rural Development, (whichever will be conducting the plan review).

Establishment Nam	e:
Address:	
City, State, Zip:	

Food & Dairy Division

Michigan Department of Agriculture and Rural Development P.O. Box 30017 Lansing, MI 48909 (800) 292-3939 Pages 9-23 ask structural and equipment questions that the operator may wish to have the contractor or architect assist in completing.

Refer to the Fixed Food Establishment Plan Review Manual for technical assistance in completing this worksheet. This manual is available from your reviewing agency or by visiting; http://www.michigan.gov/mdard/0,4610,7-125-50772 50775 51203---,00.html

It is important to complete this document in its entirety. Sections that are left blank may cause delays in the plan review of your food establishment. If a section is not pertinent to your operations, writing in NA for not applicable in that section would suffice.

Food Manager Knowledge

Under the Food Law of 2000, as amended, food establishments are REQUIRED to have a person in charge (PIC) during all hours of operation and at least one active managerial employee that has completed and obtained a Certified Food Manager (CFM) certificate under a program accredited by American National Standards Institute (ANSI). A list of ANSI accredited programs can be found at: https://www.ansi.org/Accreditation/credentialing/personnel-certification/food-protection-manager/ALLdirectoryListing?menuID=8&prgID=8&statusID=4

A designated person in charge shall demonstrate knowledge of foodborne disease prevention, application of food safety, (HACCP) principles, and the requirements of the Food Code.

Please check all that apply:		
Certified Food Manager's (CFM) Certificate submitted:	☐ YES	□ NO
Employee currently in or signed up for CFM class: If yes, submit invoice for class.	□ YES	□ NO
Menu It is REQUIRED to provide a full menu including all beverages or minimally a list. The menu does not have to be the final print version; this will be requested later a "proof" copy of the menu be submitted for approval prior to final printing. Addit noted if the establishment will host guest chefs or "popup" restaurants that may listed on the menu. The customer must be informed by means of a consumer advisory that a menu.	. regulatory authority will be conducted and communicated with you.

Food Preparation Review (See Fixed Food Establishment Plan Review Manual Parts 1 and 3)

1. How will time/temperature control for safety (TCS) food be thawed? List food items that apply.

Thawing Method	Food less than 1" thick	Food more than 1" thick
Refrigeration		
Running water (less than 70°F)		
Microwave as part of cooking process		
Cook from frozen		
Other (please describe):		

2. Cooking and reheating TCS foods: List all cooking or reheating equipment and mark all applicable boxes for the listed equipment.

Equipment Name	Cooking	Reheating	New	Used	NSF Certified or Equivalent

3. Hot and cold holding of TCS food: List all hot or cold holding equipment and mark all applicable boxes for listed equipment.

	Equipment Name	Hot Hold	Cold Hold	New	Used	NSF Certified or Equivalent
						·
4.	Will ice be used as a refrigerant for TCS fo	od?			∃ YES	□ NO
	If YES, list the types of foods involved. E operating procedures.	Ensure this p	rocess is d	lescribed v	vithin you	ır standard
						
			1 2 2 1 1 1 1			
						
5.	Will time as a public health control be used	instead of h	not or cold h	nolding?	☐ YES	□ NO
	If YES, list the types of foods involved. A be submitted for this process.	As a reminde	er, a standa	rd operatii	ng proced	dure must
			1 1 1 1 1 1 1 1			
			1 1 1 1 1			
			4 4 - 1 - 1 - 1 - 1			
						

6. Cooling TCS food: List foods that will be cooled using each of the following methods. Hot TCS foods must be cooled from 135°F to 70°F in 2 hours or less and within a total of 6 hours from 135°F to 41°F or less. If prepared from room temperature or pre-chilled ingredients (i.e. tuna salad) then the foods must be cooled from 70°F to 41°F within 4 hours.

Cooling Method	Food Items
Shallow pans under refrigeration	
under reinigeration	
Ice bath	
Volume Reduction (e.g. quartering a large roast)	
(e.g. quartorning a range react)	
Rapid chill equipment	
(e.g., blast chillers)	
Ice paddles	
Other (describe method as	
well as listing foods)	
7. Bare hand contact: How w	ill employees avoid bare hand contact with ready-to-eat foods?
Check all that apply.	
☐ Disposable Gloves	□ Deli Tissue
☐ Suitable Utensils	□ Other: Describe:
Will produce be cleaned or	n-site?
If VES, describe which s	ink(s) will be used for food preparation:
ii i Lo, describe writch s	ink(s) will be used for lood preparation.
	

9.	24 h	marking: When TCS food is ready-to-eat and will be kept under refrigeration for more than burs after preparation/opening, a date marking system must be utilized. Note: The day of aration counts as Day 1.
	Wil	If the establishment have food items that must be date marked? \qed YES \qed NO
		ES, list the foods or types of foods involved. Ensure a standard operating procedure is omitted for this process.
10	empl	ring/off-Site/satellite: This section is intended for food that will be served by establishment oyees off-site from the planned establishment. This section does not pertain to the ery of pre-ordered food to a customer (e.g. delivering a pizza).
	oth	mplete section A through F, if establishment employees will be serving food off-site at er locations. List of menu items to be served off-site:
	В.	Maximum number of meals <u>per day</u> taken to or prepared at off-site location:
	C.	How will hot food be held at proper temperature during transportation and at the off-site location?
	D.	How will cold food be held at proper temperature during transportation and at the off-site location?

E.	What type of vehicle(s) will be used to transport food?
F.	What types of food shields or food protection devices will be used at the off-site location? (See plan review manual Part 4)

^{***}Food that is <u>prepared</u> off-site from the planned establishment, would not be covered under the planned establishment's food license and additional food licensure may be needed for this off-site food preparation. Consult with your regulatory agency regarding possible additional food licensing.

Sinks & Warewashing Facilities (See Fixed Food Establishment Plan Review Manual Part 8)

F.	Mark the types of materials that will be recycled.	_
	□ Glass □ Metal □Paper □ Cardboard □ Plastic	

Plumbing Cross-Connections

(See Fixed Food Establishment Plan Review Manual Part 12)

The following technical information is needed on the proposed plumbing. This section is best completed by a qualified plumber, architect or engineer. Be sure to include all devices, equipment and fixtures that have cross-connection protection. Remember to complete both the water supply and sewage disposal sections (e.g., a dishwasher may have an AVB on the water supply and an air-gapped drain). Mark appropriate boxes. Backflow Prevention Device Abbreviations

AVB=atmospheric vacuum breaker PVB=pressure vacuum breaker

RPZ=reduced pressure principle backflow preventer DC w/AV= Double check valve with an atmospheric vent

Formula Information

Several calculations are utilized to determine if there will be adequate hot water, dry storage space and refrigerated storage space. This information requested on the following two pages provides the necessary data for performing calculations. See the plan review manual for formulas and directions. While the following information will be used to provide a good calculated baseline of how much hot water, refrigerated storage, and dry storage space may be needed, your regulatory agency does have the authority to adjust these calculated amounts based upon the specific operations of your facility.

71. Hot Water (See Fixed Food Establishment Plan Review Manual Part 12)

List each plumbing fixture that has a hot water supp should only be listed once.	oly line. Each fixture Fixture Count

74. Refrigerated/Freezer Storage (See Fixed Food Establishment Plan Review Manual Part 3)

Working, preparation or line refrigerators/freezers should not be included in this section. While these types of units may be needed in the operation of your facility, these are not intended for long term cold storage.

cold storage.

purposes?			0 1				

75. Dry Storage

(See Fixed Food Establishment Plan Review Manual Part 7)

*Storage Rooms

Otorage Moonis							
Usable room height (ft)	Interior Length (ft)	Interior Width (ft)	*% Usable Floor				
			Space				

^{*}Please note the location of any auxiliary storage (e.g. outside storage) on site plans.

^{**}To determine usable height, determine height from floor to ceiling, then subtract height of food off floor (usually 6") and height of food from ceiling (usually 12-18"). Average usable height is 4 to 7 feet.

**** Usable Floor Space is the actual percentage of floor space available for storage, this is typically 0.3 to 0.8 (30% to 80%).

Or, if there is no dry storage room proposed, report all dry storage shelf dimensions:

Storage Shelving							
Length of Shelf	Depth of Shelf (ft)	Clearance/Height	# of Shelves per	# of Units

items, etc.?				☐ YES ☐ NO			
If YES, what shelving units, or what percentage of the reported dry storage space, will be used for							
this purpose?							

Ventilation

(See Fixed Food Establishment Plan Review Manual Part 15)

Sufficient ventilation is needed to keep rooms free of excessive heat, steam, condensation, vapors, obnoxious odors, smoke and fumes.

76. List the equipment that will be underneath a ventilation hood or will utilize a ventless system and mark the type of ventilation proposed for that equipment.

and mark the type of ventilation proposed for that equipment. Equipment Type I Hood Type II Hood Ventless			
Equipment	Type I Hood	Type II Hood	Ventless

Open Dining, Exposed Food Preparation Areas & Outdoor Cooking Operations (See Fixed Food Establishment Plan Review Manual Part 18)

7. Will your facility have a dining area that will be exposed to the outdoors by directly outdoors OR by having walls, windows, or doors that can be opene dining area to the outdoor environment?		
If YES, explain how you intend to protect your kitchen and any food, utensi equipment located in the dining area from outdoor contamination and pest air curtains, screens, tight fitting doors, etc.).	ls, and food entry (e.g.	d using
