

## St. Clair County Health Department

# Reportable Disease Update December 2022

Date Issued: March 9th, 2023

The Reportable Disease Update has been developed to communicate infectious disease information to community healthcare professionals. This update will be distributed quarterly to identify and communicate issues, trends in the community, and emerging communicable diseases that can impact our community.

#### Information Items:

- Uganda has declared the end of their Ebola outbreak as of January 11<sup>th</sup> 2023. It has been 42 days since they had a reported confirmed case. To date, the United States had no cases related to this outbreak.
- As of November 28<sup>th</sup> 2022 CDC, WHO, and HHS have adopted the term Mpox instead of Monkeypox to help reduce the stigma around the disease. JYNNEOS vaccine is readily available at St. Clair County Health Department for those that have been exposed to someone with Mpox or anyone who thinks they me be at high risk. Contact St. Clair County Health Department at 810-987-5300 to schedule an appointment.
- Moving into the winter and colder months Norovirus may begin to circulate. Visit this link for a fact sheet regarding Norovirus:
   <a href="https://www.michigan.gov/mdhhs/-">https://www.michigan.gov/mdhhs/-</a>
   <a href="https://www.michigan.gov/mdhhs/-">/media/Project/Websites/mdhhs/Folder1/Folder96/NorovirusFactsheet.pdf?rev=d6df13103a4048c8b3d571f88e2f187d&hash=53531BD70265B0619F8D950CC22B59DE</a>

Please see the table on the next page for counts of reportable diseases for 2022.
