

ST. CLAIR COUNTY SCHOOL IMMUNIZATION COMPLETENESS & WAIVER DATA

INTRODUCTION: This report displays data regarding students with completed immunizations **and** vaccine waivers by school district. A student with completed immunizations has all **required** vaccinations for school entry in Michigan. Students that have a vaccine waiver, incomplete, or pending documentation when the data was pulled will be considered incomplete for the purposes of this report.

This data was obtained from the Michigan Care Improvement Registry (MCIR). Each school within St. Clair County was responsible for reporting immunization and waiver data for all kindergarteners, 7th graders, and transfer students (all ages) each school year.

Please note that some recommended vaccinations were not required by the State and this report only measured completeness for required vaccinations.

Percentage of Students with Completed Immunizations¹ by District

Data obtained from the Michigan Care Improvement Registry (MCIR)

*Values less than 5 other than zero were omitted.

¹A student with completed immunizations has all required vaccinations for school entry in Michigan based on their age. Student totals and waivers only included kindergarten, 7th grade, and transfer students.

Michigan state law mandates each school shall report to the local health department the immunization status of all kindergarten, 7th grade students, and students newly enrolled in the school district or intermediate school district. All schools affiliated with the Michigan Department of Education are required to report their immunization status of their students annually regardless if the student attends school in person or virtually.

Proof of required immunizations, lab confirmed immunity, or a valid certified immunization waiver must be provided to the school by the first day of school. Students without required documentation shall be excluded from attending until required documentation is provided. During disease outbreaks, incompletely vaccinated students may be excluded from attending school. These laws are in place to help prevent disease outbreaks in group settings. The best protection from vaccine preventable diseases is timely vaccination. Start students off on the right track by ensuring they are up to date on all eligible immunizations prior to the start of each school year.

The table below displays:

- The total number of Kindergarten, 7th grade, and transfer students
- Number of those students with completed immunizations¹
- Number of waivers
- Percent with completed immunizations
- Percent with waivers for each school district

<i>District</i>	<i>Total Number of Students</i>	<i>Number of Students with Complete Immunizations</i>	<i>Number of Waivers</i>	<i>% Complete</i>	<i>% Waivers</i>
<i>East Shore Leadership Academy</i>	60	56	*	93.3%	*
<i>Blue Water Middle College Academy</i>	352	325	26	92.3%	7.4%
<i>Port Huron Area School District</i>	1302	1174	86	90.2%	6.6%
<i>Marysville Public Schools</i>	566	510	42	90.1%	7.4%
<i>Algonac Community School District</i>	282	254	16	90.1%	5.7%
<i>Virtual Learning Academy of St. Clair</i>	58	52	6	89.7%	10.3%
<i>East China School District</i>	673	580	68	86.2%	10.1%
<i>Landmark Academy</i>	352	303	33	86.1%	9.4%
<i>Memphis Community Schools</i>	167	143	15	85.6%	9.0%
<i>Capac Community School District</i>	147	125	20	85.0%	13.6%
<i>Yale Public School</i>	339	284	45	83.8%	13.3%
Total	4298	3806	357	88.6%	8.3%

¹A student with completed immunizations has all required vaccinations for school entry in Michigan based on their age. Student totals and waivers only included kindergarten, 7th grade, and transfer students.

Vaccines Required for School Entry in Michigan

Whenever children are in group settings there is a chance for disease to spread. Children must follow vaccine laws in order to attend school. These laws are the minimum standard for preventing disease outbreaks in group settings. The best way to protect children from serious diseases is to follow the recommended vaccination schedule at [cdc.gov/vaccines](https://www.cdc.gov/vaccines). When following the recommended schedule children are fully protected and any school vaccination requirements are met.

	All Kindergarteners and 4-6 year old transfer students	All 7th Graders and 7-18 year old transfer students
Diphtheria, Tetanus, Pertussis (DTP, DTaP, Tdap)	4 doses DTP or DTaP 1 dose must be at or after 4 years of age	4 doses diphtheria and tetanus or 3 doses if 1 st dose given on or after 1 year of age 1 dose Tdap at 11 years of age or older upon entry into 7 th grade or higher
Polio	4 doses or 3 doses if dose 3 was given on at or after 4 years of age	
Measles, Mumps, Rubella (MMR)*	2 doses at or after 12 months of age	
Hepatitis B*	3 doses	
Meningococcal Conjugate (MenACWY)	None	1 dose at 11 years of age or older upon entry into 7 th grade or higher
Varicella (Chickenpox)*	2 doses at or after 12 months of age or Current lab immunity or History of varicella disease	

***If the child has not received these vaccines, documented immunity is required.** All doses of vaccines must be valid (correct spacing and ages) for school entry purposes. These rules apply to children who are the above ages upon entry into school. During disease outbreaks, incompletely vaccinated children may be excluded from school. Parents and guardians choosing to decline vaccines must obtain a certified non-medical waiver from a local health department. Read more about waivers at [Michigan.gov/immunize](https://www.michigan.gov/immunize).

The Michigan Department of Health and Human Services will not exclude from participation in, deny benefits of, or discriminate against any individual or group because of race, sex, religion, age, national origin, color, height, weight, marital status, gender identification or expression, sexual orientation, partisan considerations, or a disability or genetic information that is unrelated to the person's eligibility.
