IRS 1095 Forms—Health Coverage

Form 1095, Health Coverage, provides you with information about your health care coverage if you, your spouse or your dependents were enrolled in coverage through an insurance provider or self-insured employer last year. The forms will be mailed out in March of 2026. However, it is important to note that this form is not required to complete your taxes. You are likely to get more than one form if you had coverage from more than one provider, you changed coverage or employers during the year, or if different members of your family received coverage from different providers. Please note that retirees in the Medicare Advantage plan will not receive a form unless the retiree or a dependent turned 65 within the given year.

For more Information or if you have any questions regarding filing your taxes and your 1095 form, please contact your tax specialist.

SHARE YOUR
LUCKY CHARM.

Give blood for those in need.
