A member's interest in the trust must begin to be distributed by the later of (i) April 1 of the calendar year following the calendar year that the employee attains the age of seventy and one half (70-1/2), or (ii) April 1 of the calendar year the member retires. With respect to distributions under the Plan made for calendar years beginning on or after January 1, 2001, the Plan will apply the minimum distribution requirements of IRC 401 (a) (9) in accordance with the regulations under IRC 401 (a) (9) that were proposed in January 2001, notwithstanding any provision in the Plan to the contrary. This amendment shall continue in effect until the end of the last calendar year beginning before the effective date of final regulations under 401 (a)(9) or such other date as may be specified in guidance published by the Internal Revenue Service.

 - (iv) If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to the surviving spouse begin, this paragraph (6) will apply, other than paragraph (6)(i), as if the surviving spouse were the member

If annuity payments irrevocably commence to the member before the member's required beginning date (or to the member's surviving spouse before the date distributions are required to begin to

the surviving spouse under paragraph (6)(i), the date distributions are considered to begin is the date distributions actually commence.

(7) Form of Distribution. Unless the member's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution calendar year distributions will be made in accordance with paragraphs (8) through (13) of this section. Determination of Amount to be Distributed Each Year.

(8) General Annuity Requirements. If the member's interest is paid in the form of annuity distributions under the Plan, payments under the annuity will satisfy the following requirements:

(i) The annuity distributions will be paid in periodic payments made at intervals not longer than one year;

(iii) Once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted.

(h) Eligible Rollover Distributions. This section applies to distributions made on or after January 1, 1993. Notwithstanding any provision of the plan to the contrary that would otherwise limit a distributee's election under this section, a distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee as a direct rollover. The following definitions shall apply with regard to this section.

1. Eligible rollover distribution. An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint life (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more, any distribution to the extent such distribution is required under IRC 401 (a)(9). For purposes of the direct rollover provision, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be paid only to an individual retirement account or annuity described in IRC 408 (a) or (b), or to a qualified plan described in IRC 401 (a) or 403 (b) that agrees to

separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

2. Eligible retirement plan. An eligible retirement plan is an individual retirement account described in IRC 408 (a), an individual retirement annuity described in IRC 408 (a), an annuity plan described in IRC 403 (a), an annuity contract described in IRC 403 (b), and eligible plan under IRC 457 which is maintained by a state, political subdivision of a state and which agrees to separately account for amounts transferred in such plan or a qualified trust described in IRC 401 (a), that accepts the distributee's eligible rollover distribution. The definition of eligible retirement plan shall also apply in case of a distribution to a surviving spouse or to a spouse or former spouse who is the alternate payee under a domestic relations order.

3. Distributee: A distributee includes an employee or former employee. In addition, the employee's or former employee's surviving spouse is a distributee with regard to the interest of the surviving spouse.

4. Direct rollover. A direct rollover is a payment by the Retirement System to the eligible retirement plan specified by the distributee.

(i) Maximum Annual Earnings. For Plan years beginning on or after January 1, 1989, and before July 1, 1996, the annual compensation of each Participant taken into account for determining all benefits provided under the Plan for any determination period shall not include any amounts in excess of the annual compensation limit (originally 200,000) provided for in IRC 401 (a) (17) prior to the Omnibus Budget Reconciliation Act of 1993 (OBRA '93"), and adjusted for inflation in the manner provided by IRC 401 (a) (17). For Plan years beginning on or after July 1, 1996, the annual compensation of each employee taken into account shall not exceed the annual compensation limit provided for in IRC 401 (a)(17), as amended by the Omnibus Budget Reconciliation Act of 1993 ("OBRA '93") (\$200,000 in 2002). This limit may be adjusted as required by federal law for qualified government plans, and shall be further adjusted for inflation in the manner provided by IRC 401 (a)(17). Annual compensation means compensation during the plan year or such other consecutive 12 month period over which compensation is otherwise determined under the plan. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

(j) Forfeitures. Upon a member's termination date, the value of any forfeitable accrued benefit shall be forfeited by the member as of the termination date. The value of such forfeitures shall be used to reduce the employer's future contributions under the Plan in accordance with IRC 401 (a)(8). No forfeitures under the Plan shall be applied to increase the benefits that any member or beneficiary would otherwise receive at any time prior to the time when the Plan may be terminated. If a member whose employment has terminated does not retain a vested benefit under the Plan, he/she shall no longer be a member or retain or earned credited service under the Plan unless and until he/she again becomes an employee.

(k) Military Service. Notwithstanding any provision of the Plan to the contrary, contributions benefits and service credit with respect to qualified military service will be provided in accordance with IRC 414(u) and Regulations.

(l) Vesting. Pursuant to IRC 411 (e) as in effect in 1974, a member shall be 100% vested in his/her accrued benefit when he or she attains Normal Retirement Age.

(m) Plan Year. The plan year shall be the 12 consecutive month period commencing on January 1, and each anniversary thereafter.
