**PERMETHRIN 5% CREAM PHARMACY STOCK**

St. Clair County Health Department (SCCHD) is working with a county facility regarding a scabies outbreak. SCCHD urges pharmacies to assess their stock of Permethrin 5% cream and be prepared for the possibility of an increase in requests to dispense. The goal for this outbreak is to provide treatment within 24 hours and delays in obtaining the medication has the potential to impact the disruption of transmission and curb the outbreak. SCCHD thanks you in advance for your assistance in keeping our community healthy and nuisance free.
