

**St. Clair County  
Health Department**

**Reportable Disease Update  
April 2016**

**Date Issued:** April 13, 2016

---

The Reportable Disease Update has been developed to communicate infectious disease surveillance information to community healthcare professionals. This update will be distributed quarterly to identify and communicate issues, trends in the community, and emerging communicable diseases that can impact our community.

---

**Information Items:**

- Zika Virus Disease remains a dynamic health concern. Guidelines for travel, preconception education, pregnancy, sexual transmission, care of infants and children with possible Zika virus disease and symptomatic individuals have been updated as new information is gathered. Links to updated guidance can be found on St. Clair County's (SCCHD) website at [www.scchealth.co](http://www.scchealth.co)
- Before you see the world, see us! The SCCHD immunization travel clinic is a wonderful resource for anyone planning a trip. Travel consultations consist of a nursing visit to discuss the destination specific TRAVAX™ that includes recommended and required immunizations, preventive education, malaria recommendations and safety tips. Appointments for travel vaccinations should be made 4-6 weeks in advance of departure.

**Please see the table on the next page for counts of reportable diseases as of March 2016.**
