

Date Issued: January 31, 2020

The Reportable Disease Update has been developed to communicate infectious disease surveillance information to community healthcare professionals. This update will be distributed quarterly to identify and communicate issues, trends in the community, and emerging communicable diseases that can impact our community.

Information Items:

- Michigan's communicable disease rules are promulgated under the authority conferred on the Department of Community Health by section 5111 of Act No. 368 of the Public Acts of 1978, as amended, being 333.5111 of the Michigan Compiled Laws. For the current 2020: Health Care Professional's Guide to Disease Reporting in Michigan which include the list of the 2020 Reportable Diseases in Michigan: https://www.michigan.gov/documents/mdhhs/MDHHS_Brick_Book_609755_7.pdf. Health care professionals should consult St. Clair County Health Department (SCCHD), Communicable Disease Division, with questions related to reporting responsibilities.
- The United States is closely monitoring an outbreak of respiratory illness caused by a novel coronavirus (2019-nCoV) first identified in December 2019 in Wuhan, Hubei Province, China. For up to date information and guidance go to <https://www.cdc.gov/coronavirus/2019-ncov/index.html>

Please see the table on the next page for counts of reportable diseases as of December 2019.
